PRODUCTS CONTAINED IN THE PACK:

PROWINS TRICOX Powder

It acts directly against the bacteria that cause trichomoniasis and coccidiosis. In addition, regular use of this product creates a natural resistance in the body of pigeons and birds, reducing the risk of disease from these two ailments.

PROWINS SALMOX Powder

100% natural antibiotic, which acts directly on the bacteria responsible for salmonellosis and E-Coli. Its patented formula contains 100% natural antibiotics, obtained from medicinal herbs and plants. It also stimulates and strengthens the immune system, considerably reducing the risk of disease.
