# TOTAL PROTECTION <sup>Pack</sup> TREATMENT SCHEMES

## What products contain this pack:

**Prowins VermiX Plus 100ml**

*A powerful internal antiparasitic,  
100% natural.*

**Prowins TriCoX Active 100ml**

*It acts directly against the bacteria that  
cause trichomoniasis and coccidiosis.*

**Prowins SalmoX Extra 100ml**

*100% Natural antibiotic, which acts directly  
on bacteria and salmonellosis and e-Coli.*

**Prowins Super Drops 30ml**

*Drops that clean and disinfect the respiratory  
tract.*

### During BREEDING:

**1 Prowins TriCoX Active**  
2ml / liter of water (3 consecutive days)

**2 Prowins SalmoX Extra**  
2ml / liter of water (3 consecutive days)

*Repeat treatment until the end of the period*

### During WEANING:

**1 Prowins TriCoX Active**  
3ml / liter of water (3 consecutive days)

**2 Prowins SalmoX Extra**  
3ml / liter of water (3 consecutive days)

*Repeat treatment until the end of the period*

### During COMPETITIONS:

2ml / liter of water (3 consecutive days)

**2 Prowins SalmoX Extra**  
2ml / liter of water (3 consecutive days)

*Repeat treatment until the end of the period*

### During the MOULTING:

Before the beginning of the moulting:

**1 Prowins VermiX Plus**  
4ml in food (2 consecutive days)

**2 Prowins TriCoX Active**  
3ml / liter of water (4 consecutive days)

**3 Prowins SalmoX Extra**  
3ml / liter of water (4 consecutive days)

*Repeat at mid-molt and at the end of the moulting*

### In case of ILLNESS:

*Trichomoniasis or Coccidiosis:*

**1 Prowins TriCox Active**

If we observe pigeons with symptoms or we suspect that there are infected pigeons, we will apply a shock treatment with **3ml per liter of water for 7 consecutive days.**

After the treatment, we wait 10 days and if the symptoms persist, we will repeat the treatment.

*Salmonellosis, e-Coli, severe diarrhea:*

**1 Prowins SalmoX Extra**

**3 ml per liter of water, for 5-7 consecutive days.** After the treatment, we wait 10 days and if the symptoms persist, we will repeat the treatment.

### Prowins Super Drops

*During the COMPETITIONS:*

The day before basketing and the day of arrival, apply **1 drop in each nose and wait 5 minutes.** Then we take a cotton swab soaked in Super Drops and clean the nostrils of the released mucus.

*During the WEANING of youngsters:*

We apply 1 drop in each nose and 1 drop in each eye.

*For TREATMENT:*

- With watery eyes, apply 1 drop in each eye.
- In case of cold, excess mucus, apply 1 drop in each nose.
