Day 6

Sport Diet (15/20gr per pigeon)

Products needed:

Prowins Boost-Amin

1L / 500ml / 250ml

A combination of amino acids, B vitamins and electrolytes. To increase energy reserves, strengthen the muscular system avoiding muscle cramps during flights and to accelerate and improve recovery after flights.

Prowins Liverstim Plus

100ml

Detoxifies the liver of pigeons overloaded after intense physical efforts. It has an anti-inflammatory and antioxidant effect, which makes it a highly effective recuperator to use after flights.

Probac Oregano Oil

500ml

To enhance the effectiveness of Probibac Forte and to strengthen the body's defenses, reducing the risk of infections during the flight season.

Prowins Superchol Plus

1L / 500ml / 250ml

To eliminate toxins from the body, generated during flights by the enormous effort made. It also improves physical condition by helping to maintain optimal fitness for longer.

Versele-Laga Gerry Plus (Super Diet)

20Kg + 2Kg free

A low-protein but high-fat diet, enriched with Plus IC + extruded granules, provides enough energy to withstand the most demanding flights.

Vlietabo

800gr

Highly energetic glucose with instant effect. Extraordinary contribution of energy to the body with a very fast effect that increases the vitality of the pigeons and improves the physical performance of the pigeons.

Prowins Probibac Forte

500gr / 150gr

To restore the intestinal flora after the great efforts made during the flights and complete the recovery of the organism after the flights.

Prowins Cat-B12 Plus

100ml

A powerful metabolic stimulant specifically developed to increase endurance in flight and delay muscle fatigue. Optimizes the metabolism of carbohydrates, increasing energy reserves for flights and also improves oxygenation of the blood, stimulating the production of red blood cells.

Belgica de Weerd Belgasol

1L / 500ml / 250ml

Unique combination of vitamins, amino acids, electrolytes and trace elements. Rehydrates the body in record time, after flights, much faster than conventional electrolytes.

Eurozol Tonic

Sachet

To increase resistance during flights, improve the muscular system and increase the pigeons' desire to fly.

Versele-Laga Champion Plus (Sport)

20Kg + 2Kg free

A specific diet for the flight season, enriched with extruded granules Plus IC +, which now has energy that is gradually released during flights.

Notes: Daily flights of 35/40 minutes in the morning and in the afternoon
