

Treatment against Trichomoniasis in Pigeons

To consider:

- 1.- Disease caused by a flagellate that lives in the mucosa of the throat and the crop.
- 2.- It is a disease universally widespread in the pigeon lofts around the world.
- 3.- It causes many losses and poor results on flights.
- 4.- If not treated, it can give rise to other more serious diseases.
- 5.- Most of the time it occurs if appreciable symptoms; Sometimes yellow spots appear on the throat.

Necessary products:

- **Total Disinfection Solution**, to prevent the spread of the disease to other specimens of the loft and prevent the proliferation of other germs

- **BVP Ronidazole 5%**, for the control of trichomoniasis

- **Prowins Elixir B12**, to strengthen the immune system and accelerate recovery after treatment.

Scheme to follow for the treatment of Trichomoniasis

Days	Necessary products
Day 1	<u>En 1 liter of water:</u> 15 ml of Total Disinfection Solution + 5gr of BVP Ronidazole 5% + 15ml of Prowins Super Elixir B12
Day 2	<u>En 1 liter of water:</u> 15 ml of Total Disinfection Solution + 5gr of BVP Ronidazole 5% + 15ml of Prowins Super Elixir B12
Day 3	<u>En 1 liter of water:</u> 15 ml of Total Disinfection Solution + 5gr of BVP Ronidazole 5% + 15ml of Prowins Super Elixir B12
Day 4	<u>En 1 liter of water:</u> 15 ml of Total Disinfection Solution + 5gr of BVP Ronidazole 5% + 15ml of Prowins Super Elixir B12
Day 5	<u>En 1 liter of water:</u> 15 ml of Total Disinfection Solution + 5gr of BVP Ronidazole 5% + 15ml of Prowins Super Elixir B12
Day 6	<u>En 1 liter of water:</u> 15 ml of Total Disinfection Solution + 5gr of BVP Ronidazole 5% + 15ml of Prowins Super Elixir B12
Day 7	<u>En 1 liter of water:</u> 15 ml of Total Disinfection Solution + 5gr of BVP Ronidazole 5% + 15ml of Prowins Super Elixir B12

This plan must be administered for 7 consecutive days.

Trichomoniasis
